# Images Aren't Good Enough For Your Audience Today!

If you're using static images to reach out to your audience that has the attention span of a Goldfish, you're in for disappointment.

## Grab The Multitasking Audience's Attention Using Effective Professional Videos

There is cut-throat competition between brands to keep their heads above water in the space of digital marketing.

## Run Down Video Content Is Not The Solution

With people doing multiple things at once, it is very hard to be compelling enough for someone to stop passively scrolling. 2D Explainer Videos and audio are extremely effective in producing results in our favour. 90% of everything that stimulates us mentally comes by way of explainer video and audio. Now imagine, your audience finding an animated video with sound as they scroll through the mundane content of nameless brands.

THEY STOP THEY WATCH THEY LISTEN

And your job here is done, folks. Your voice has been heard by the generation that has their earphones plugged in at all times. Your message has been delivered over their extremely demanding and hectic lives. You've managed to attract them to your product or service. You've managed to make yourself a great deal of profit with tremendous ease.

## An Animated Video For President Of The Free Marketing World

If we could vote for anyone, we would vote for animated videos. Statistics from HubSpot & other researchers back us up on our choice!

**Effective Development:** Explainer videos have worked to increase sales as vouched by **76% marketers.** Increased traffic generation has become a reality.

**Exceptional Communication:** Explainer videos less than 90 seconds in duration are shared 37% more often.

If these aren't qualities you are looking for in your next campaign, we don't know what you are looking for. Using Animated 2D Explainer Videos is unquestionably the RIGHT CHOICE.

But Chances Are That You Already Knew This:

## You've Seen Your Competition Use VidToon™ 1.0 And Make Exceptional Profits.

We're not telling you something you don't already know. You've seen your contemporaries use animated videos to their advantage. More specifically, you have seen them use the best animated video maker software to do it- VidToon™!

You missed out then! We know how that can be a downward spiral. You're losing out on your audience everyday as others leverage animated videos to attract them. They're taking on your market share and making exponential profits.

If you're still questioning what to do next, take it from us and choose change. It's always the right choice.

Jump onto the bandwagon of using animated videos without wasting another precious moment. Effectively market your brand and uncover the gold mine!

# What's The Big Deal About VidToon™ 2.0, You Ask?

IT'S THE BEST NEW AGE EXPLAINER VIDEO SOFTWARE

**Get Instant Access To VidToon™ 2.0**

30 Days Money Back Guarantee

We've had users going gaga over VidToon™ when the former version was released. They simply could not get enough. However, years ago when they were scrolling down a similar page, they asked the same question.

WHAT IS THE BIG DEAL ABOUT ANIMATED VIDEOS AND VIDTOON™?

We could write pages worth of content & it still won't be enough if you don't try it for yourself. But in case you need reassurance, here's some more -

## If It Works For Disney, It'll Certainly Work For Us

There is a huge fan base for animated movies and shows out there. People are buying animated character merchandise and there are several theme parks profiting from it.

Is that not reason enough to believe that animation works? It works because it reaches out to the child within each of us. Combine animation with a powerful marketing message and there you have your recipe for success.

## Be So Good, They Can't Ignore You

The entertainment factor aside, videos are simplistic tools that help explain complex matters. You can sell your product or service using animated story telling. Relatable characters and audio make the video striking!

Your video compels people to buy your product. It's not hard to put 2 & 2 together. Use VidToon™ 2.0 to see the results for yourself!

## Quickest Way To Make Profits

We've established the fact that static images don't work. Audio alone doesn't work well either. Video is the king of content, it's likely to remain so.

Now imagine creating videos everyday for your brand. Hiring expensive actors, creating elaborate set ups & burning a hole in your pocket with expert videographers. Now, think again. With animated videos not only are you saving money, you are also saving all that time. VidToon™ lets you create effective animations within a few minutes. You can even add Text to speech tools for personalized audio. All the time that you save on creating a video, you spend making money from it. There can be no better deal.

## Making Learning Fun

One never stops learning. So technically, all the world's a classroom & there is immense pressure on the teacher. We make teaching easy & learning fun.

VidToon™ makes tutorials and training videos simultaneously entertaining and educational. We've heard learning never goes waste, and we can't say that we disagree.

# Try VidToon™ 2.0 Risk-Free For 30 Days

Hey, VidToon™ is the undisputed winner when it comes to tools for creating animated videos fast (and we have 8K users backing us on this claim).

Take VidToon™ 2.0 for a spin for the next 30 days… and we are sure you're gonna love it!

In case you have any issues… get in touch. We either fix things for you quickly or give you a full refund. It's as simple as that.

P.S. Our Support Desk is literally on a paid holiday since we launched VidToon™ 1.0 i.e. they are on the job… but haven't got a single refund ticket so far. And we love this arrangement and are happy to pay them.

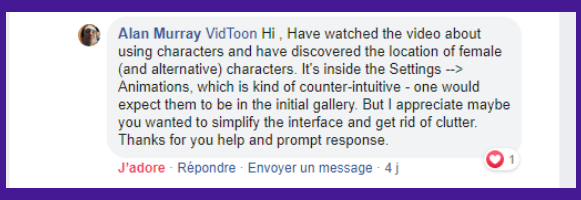
# Check VidToon™ Out From The Eyes Of Our Users



Alan Murray VidToon Hi , Have watched the video about using characters and have discovered the location of female (and alternative) characters. It's inside the Settings --> Animations, which is kind of counter-intuitive - one would expect them to be in the initial gallery. But I appreciate maybe you wanted to simplify the interface and get rid of clutter. Thanks for you help and prompt response.

Excelente software, fácil de manejar, ayuda a los que no tienen experiencia en hacer videos.
Excellent logiciel, facile à gérer, aide ceux qui n'ont pas d'expérience dans la vidéo.

Intuitive and easy
I used several video tools to create animation before - Vidtoon stands out to be intuitive and easy to use. I also like Vidtoon customer service and they answered my questions quickly and send me to the right place to find additional resources.

Amazing Software
Providing many ready to use cartoon assets that allows you to create videos very easily & with many transitions and effects.
Really happy with the ease of use, amount of assets and the results.
Highly recommend this one!

Marvin C Ward This was really good and save me a lot of money 💰. I love how easy you good create and animation without hours of work. I have had a lot of churches and business wanting me to do work for them and I did. Great animation software to start and it doesn't cost a lot. You will love it 😍 if you purchase this software

Another Great Program
I contacted their support team and Hamza responded back fast. He explained to me that it is not possible to put all the assets on the app and that I would need to go on the marketplace to download and then upload the additional characters, backgrounds, and royalty-free music tracks. He then gave me a link on how to add the missing resources from the Marketplace (https://www.loom.com/share/431f5d181b1440aa93b93a9a2d9e741b) and from there everything went smoothly.
Another great thing about Vidtoon 2.0 is the ability to search for additional images (Pixabay), icons (IconFinder), gifs (Giphy) from within the program at no additional cost.

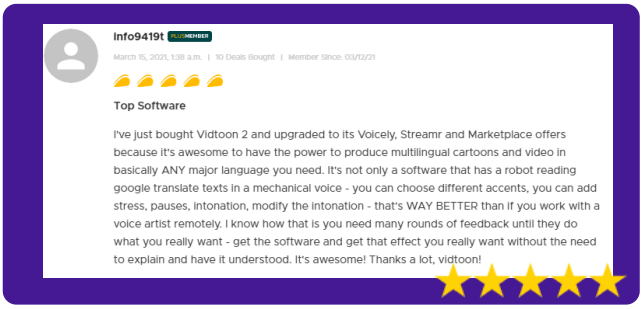
My experience with Vidtoon
I have purchased Vidtoon 2 and I found it very easy to use, the interface is user-friendly and it fits with my Windows system. Comparing to other softwares, there isn't any bug.



info9419t
Top Software
I've just bought Vidtoon 2 and upgraded to its Voicely, Streamr and Marketplace offers because it's awesome to have the power to produce multilingual cartoons and video in basically ANY major language you need. It's not only a software that has a robot reading google translate texts in a mechanical voice - you can choose different accents, you can add stress, pauses, intonation, modify the intonation - that's WAY BETTER than if you work with a voice artist remotely. I know how that is you need many rounds of feedback until they do what you really want - get the software and get that effect you really want without the need to explain and have it understood. It's awesome! Thanks a lot, vidtoon!
